THE COMPANY

Founded in Halmstad, Sweden in 1986, Range Servant's founder, Jordan Knez, saw a need to improve equipment for the golf industry. Using sustainability and durability as guiding principles, he combined his enthusiasm for golf and technical expertise to develop Sweden's first ball dispensers, washers, and ball pickers. In the early 90's, Range Servant expanded to the United States and developed a distributor network around the world. Now, 37 years later, we finally expand into the UK with our own company. Range Servant handles nearly 10 billion balls annually and are considered the market leader in driving range equipment.

THE BUSINESS

Range Servant produces and sells driving range equipment and solutions that manage the picking, washing, dispensing, and overall handling of golf balls. Each customer is unique, and we are always happy to assist with technical support, spare parts, installation, and project management. Range Servant offers a wide variety of accessories to round out a complete catalog of high-quality range equipment.

Our goal is to inspire golfers to hit more balls and to help range owners operate a carefree and more profitable business.

FREE OF CHARGE*
for 12 months on all new Ball Dispensers

SMART RANGE

RSCONNECT

SMART
DIGITAL
PLATFORM

Improve your **RANGE INTELLIGENCE** with our Smart Range Technology. A Dashboard, showing important KPIs, such as balls dispensed, payment channels and more. Add to that low ball and technical malfunction alerts to maximize efficiency and minimize downtime.

Low ball level alert

Never run out of balls again by getting an alert when the ball level is low.

Statistics

Know your range business with statistics, such as balls dispensed, payment channels used, revenue levels, and alerts sent.

System Health

Be ahead of the game! Keep your Range Servant equipment online and healthy 24/7. You will receive an alert if balls cannot be dispensed.

API-Integration

This feature will enable integration with Third Party Solutions for a greater Range Experience.

*12 months free subscription for all new ball dispensers. Please read the Terms of Use for RScconnect on the enrollment page for details.

BALL DISPENSERS

MARKET LEADING QUALITY SINCE 1986. Made of aluminum, stainless, and galvanized steel, the Range Servant Ball Dispensers are simply made to last.

BALL DISPENSERS ULTIMA

SINGLE BALL DISPENSING SOLUTION. Through our precise sensor, we can dispense any ball count, enabling customers to sell unlimited variations to their customers.

MODULAR. Highly modular, meaning upgrades and add-ons are applicable. Add a washer and elevator to save tons of time for your Range operators.

MATERIALS. Built using aluminum in combination with stainless galvanized steel.

HIGH-VOLUME CONE-TOP. Designed for high volume Ranges. With extra capacity and twice the reliability, choose any of our dual dispensing solutions.

5 models	6 bucket sizes of any ball count	8,000- 43,000 ball capacity

BALL DISPENSERS BEHIND THE WALL

HIGHLY CUSTOMIZABLE. For the golf range looking to customize its marketing or highlight the facility, the Behind the Wall Dispenser is the natural choice.

ADJUSTABLE CHUTE. The Ball Dispenser can stand flush or further back from the wall thanks to the adjustable chute.

HIGH VOLUME SOLUTION. This dispenser has both the volume and quality that Range Servant stands behind.

OPERATES LIKE THE ULTIMA LINE. The ball handling and dispensing operates precisely like the Ultima models.

FLEXIBLE PAYMENT CABINET. The Ball Dispenser can stand flush or further back from the wall, with a flexible payment cabinet.

GOLFMORE PAYMENT SYSTEM

Increase availability and sales on your driving range with GolfMore payment system. Give your customers the opportunity to choose how they want to pay.

- Multiple payment options
- Integrated with several National golf federation member bases
- Low Transaction fee on Debit/Credit card payments
- Up to 4 different basket sizes
- Schedule free balls, and manage closing of the range
- 24/7 hotline (7.00 – 22.00 GMT+1)
- Dynamic prices (Happy hour)
- Opportunity to import customers
- Warning SMS "if" the system goes down
- Detailed statistics
- Cloud based
- Multilingual
- User-friendly dashboard

” **With GolfMore, we have finally got control of the ball handling, everything from handling free balls to juniors to different pricing based on demand. It is also an incredibly time-efficient system where members and guests take care of charging the app themselves or pay by card or mobile payments.**

*Johan Hinton, General Manager
Hinton Golf, Sweden*

INCLUDED IN SUBSCRIPTION

- New door for the ball dispenser
- Payment Terminal Unit
- NFC Scanner for ball card
- 3G/4G Modem for back-up
- Updates
- User-friendly dashboard
- 24/7 hotline (7.00 – 22.00 GMT+1)

KNOW YOUR RANGE WITH GOLFMORE

Gathering information and measuring metrics are keys to business intelligence, including the golf range. Knowing the current state of the business helps to develop goals and activities to move the business forward.

With the GolfMore dashboard you can easily monitor sales and activity on all ball dispensers. Gather statistics with key metric such as:

- Revenue
- Dispensed balls
- Most popular basket size
- Most popular payment method
- Most popular day and time
- Opportunity days
- Sold products in the app

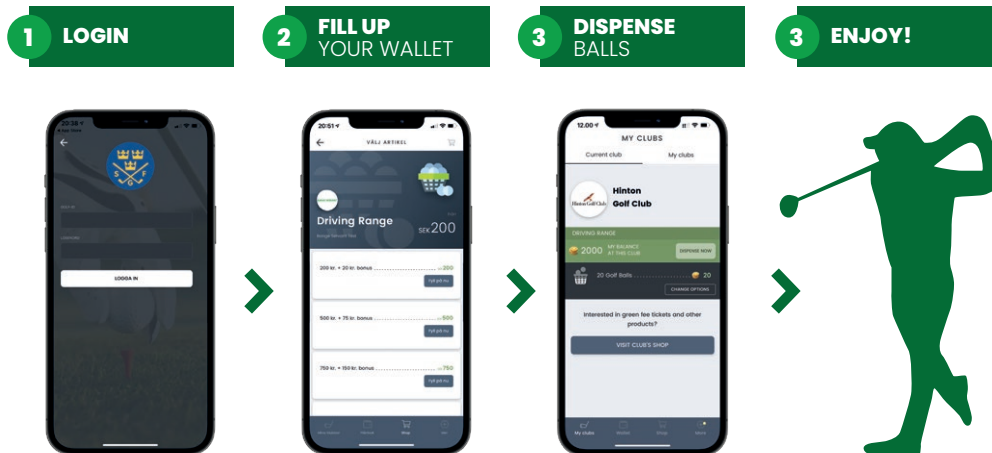

14 DIFFERENT REPORTS can be created and downloaded in PDF and XLS format for easy sharing with, for example, colleagues and board members.

DASHBOARD
WITH 14 REPORTS

There are many ways to improve the range experience, but the key is knowing where you are right now. By understanding your starting point, you will create the foundation to move your range in the desired direction.

HOW TO USE THE APP

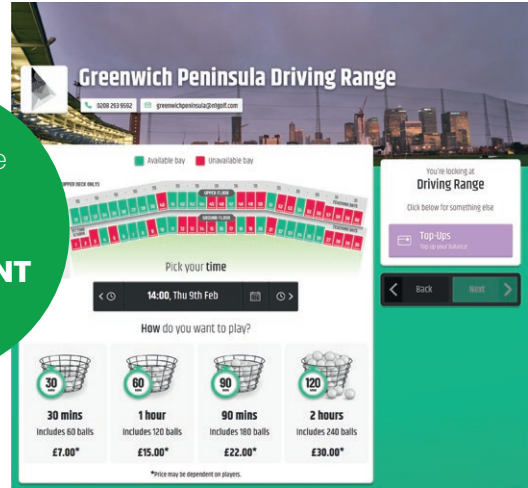

YOUR GOLF BOOKING PAYMENT & BOOKING SYSTEM

YGB is a customer booking engine and facility management system designed to bring your golf venue into the 21st Century.

BOOKING SYSTEM

- Sell time and balls at your driving range.
- Maximise your sales and fill up your venue back-to-back.
- Upsell food, drink, clubs and more at the point of booking.
- Sell top-ups and offer special rates to your members.

The Ultimate Course & RANGE MANAGEMENT SYSTEM

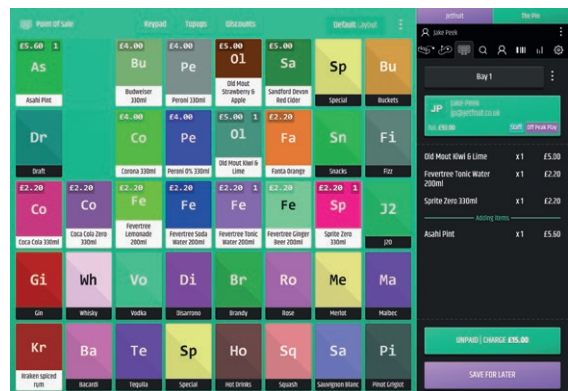

Your Golf Booking

SYSTEMISE YOUR VENUE

- Manage your venue, book walk-in customers and create tabs for each session.
- Create a powerful customer database for marketing.
- Integrate with your tracking providers and entertainment systems.
- Create rules around your sessions and reserve time on the range for your pros.

NOT JUST BOOKINGS

- Run your food, beverage and shop all from one place.
- Create tabs and sell more for each session.
- Sell balls from your POS and generate tokens for dispensing.
- Create special barcodes to keep track of the balls used by pros or for fittings.

PAYMENT SYSTEM

THE PANEL

A key part of a fully integrated, smart and bookable driving range, or a standalone way to sell balls to your customers.

YOU CHOOSE.

THE HARDWARE

- 10.4" android touch screen.
- Mountable to dispensers or any flat surface.
- Configurable remotely from your YGB account.
- Verifone UX payment terminal.

1 THE PANEL ITSELF
 Standalone it can dispense balls from pre-created QR codes.

Sell a session online or in-venue and let customers retrieve their own balls.

2 THE PAYMENT TERMINAL
 If you want to sell balls directly at the panel, add on our payment terminal.

THE FEATURES

- Integrates directly with Your Golf Booking.
- Allow customers with a booking to dispense balls for their session.
- Selling time at your range? Allow unlimited balls while their booking is active.
- Set special prices for members or under specific conditions.
- Set as many available products as you like, and dispense any number of balls.
- Customers can pay by card, Apple Pay, Google Pay, by link, or their YGB balance.

PART NO.	PRODUCT
YGB Booking System	Implementation of YGBs modular booking solution. Tailored to the specific venue.
YGB Panel	Hardware mountable Panel for dispensing. Requires YGB Booking System.
YGB Panel Payment Module	Payment hardware for in-person payments at the Panel. Requires YGB Panel.

RANGE SERVANT PAYMENT SYSTEMS

SOLO 1 & 2

Solo is an intuitive software solution that increases range sales and controls. Easy to view reports give the range owner a grasp on trends while Employee Sales and Revalue Reports keep employees organized and accountable.

- Simply hold card up to the reader
- No contacts to wear out and replace
- Components are sealed against weather
- Wireless
- Solo 1 & 2 systems are both stand-alone system.

Solo 1

- Load buckets instead of cash on card
- Easy to use
- Simple setup

Solo 2

- Load cash value on card
- 3 bucket sizes
- Cancel lost cards
- Employee Sales and revalue reports
- Download dispenser data
- Set happy hour pricing
- Set an expiry date for each individual account

For printing on the cards please contact us for quotation

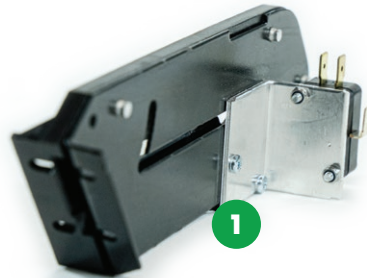

TOKENS

Range Servant is the only range company that makes its own tokens. This means you will never get a token from an arcade, laundromat, or a nearby competitor.

All Range Servant machines are sold with a token Acceptor. We believe that having a system that doesn't rely on a constant Internet connection is a great backup and will help keep up the operation.

All customers are free to choose which tokens they want for their club, good thing is that we also keep track for you so you don't have to worry.

- Sell one token for a large, not three
- Dispense ANY ball count for ALL tokens
- Buy fewer tokens
- Curb large bucket sharing and hoarding

#	PART NO.	PRODUCT	INCLUDED IN THE PACKAGE
1	108600	Token acceptor	(package of 500)
2	108740	Token RS-A	(package of 500)

2	OKM0001	Token RS-VI	(package of 500)

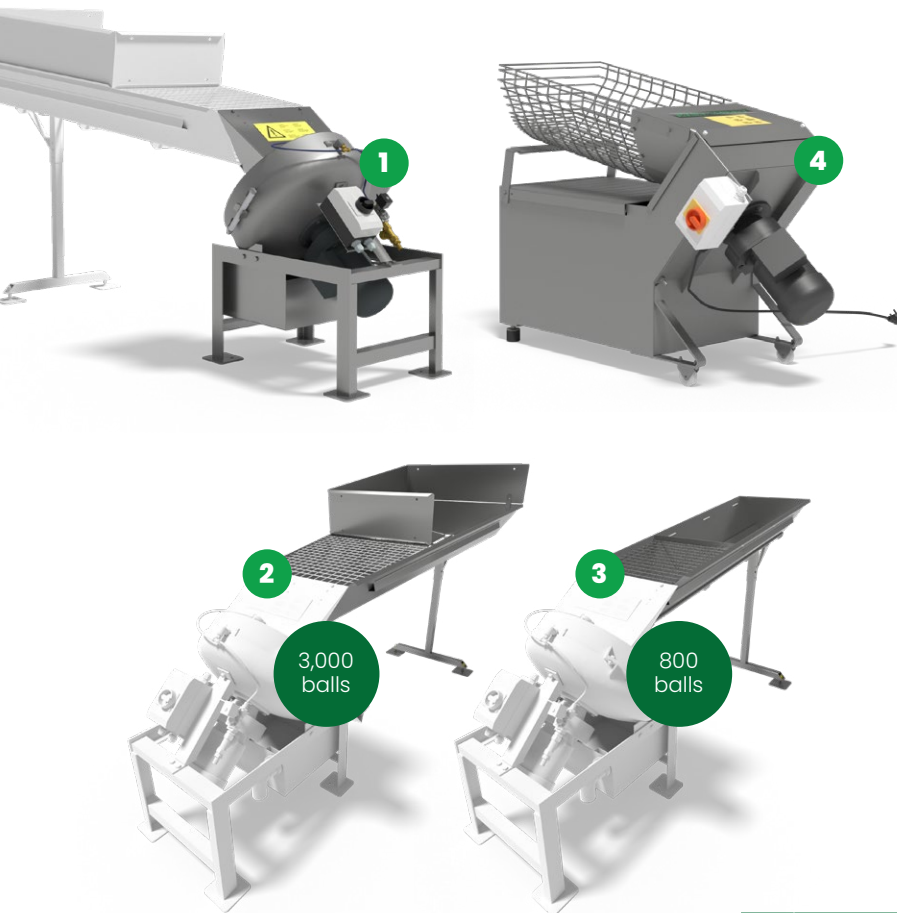

Above nickel-plated tokens available also in brass.

BALL WASHERS & ELEVATORS

Our washer-elevator system is robust, easy-to-use, and allows the operator to automate the process of washing balls and filling the dispenser.

HIGHEST QUALITY

Range Servant has trusted our partner, AB Halmstad Varmförzinkning, for galvanizing our washers over the last 30 years. Our washers are dipped in Molten Zinc, which produces a multi-layered coating of zinc-iron alloy, resulting in a long-life, rust-free and corrosion resistant product.

WASHERS

The Range Servant washer is a testimony of true craftsmanship. Built to last and with few moving parts, this unit will add value to your driving range for years to come. Our washers come in three models. **BT1950** is the perfect washer for medium to bigger ranges and **BT1300** for smaller ranges. Pick the hopper of your choosing and create a complete washing solution. The **BT1000** is a standalone unit with a built-in hopper that doesn't require constant water flow.

Requirements: water supply connection 1/2", drain 50 mm, 230V electricity

WASHER TRAYS

Our Washer Trays, which hold 800-3,000 balls, are made of the highest quality galvanized steel. No matter the number of balls that are picked daily, you can be assured that the Range Servant washer will stand up to any range.

PRODUCT	SIZE H/W/D mm	WEIGHT
BT1300 with Washer Tray S	1,000/600/1,807	75 kg
BT1300 with Washer Tray XL	1,180/690/2,035	81 kg
BT1950 with Washer Tray S	1,000/647/1,846	86 kg
BT1950 with Washer Tray XL	1,180/690/2,073	100 kg
BT1000	835/639/1,280	67 kg

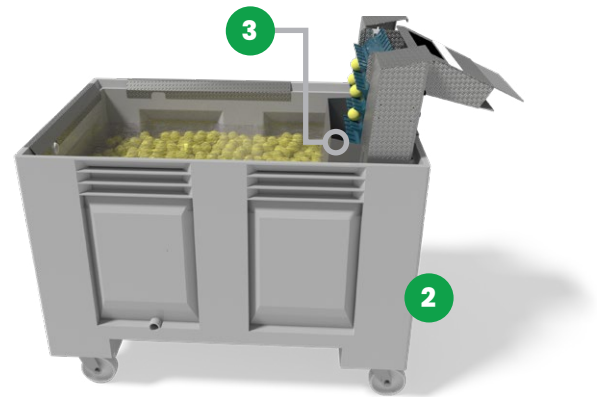

#	PART NO.	PRODUCT	BALL CAP	BALLS/HR

-	WGM0000	Ball Washer BT1300	Add hopper	12,000
2	970047	Washer Tray XL	3,000	
3	221201	Washer Tray S	800	
4	WBT0001	Standalone Ball Washer BT1000	700	20,000

PRE-SOAKER

Designed with the muddy season in mind, our Pre-Soaker loosens deeply embedded and caked-on dirt before the balls are lifted by the elevator into the BT1950 or BT1300 ball washer.

- Rust-proof aluminum and stainless steel elevator for years of rust-free functionality
- Perforated belt design keeps water in the bin and the balls on the belt
- Speed control belt drive adjustable to feed any ball washer
- Removable interior grid system allows for easy maintenance and cleaning
- Add a sprinkler to remove any grass/dirt from entering the washer
- Comfortable working height for range operators
- Durable Polymer, 4,000 ball capacity bin

Requirements: water supply connection 1/2", drain 50 mm, 230V electricity

” Since we acquired a soaker from Range Servant, the muddy and slow work is gone! While we pick balls, the soaker combined with washer are doing the job automatically. It’s saving us 45 minutes per day of manual washing time. It pays for itself in less than a season, and the golf balls come out 2 times cleaner than with the washer alone. We absolutely recommend a soaker/cleaner combo; it’s the rig of the pros!

Mauricio Galante, Golf Center of Arlington, Arlington, TX, USA

ELEVATORS

Range Servant Elevators have saved a lot of time, money, and aching backs over the years. Standard sizes fit our Ball Dispensers, but can be custom made in any length for driving ranges and golf ball recovery operations.

- Rustproof stainless steel and aluminum
- 30,000+ balls/hour
- Overfill sensor turns off Elevator automatically when Dispenser or Hopper is full
- Compatible with any Ball Washer
- Ball Washing is reduced to pressing **ONE GREEN BUTTON!**
- Extra outlet powers any Ball Washer for an instant Ball Management System!
- Photo-sensor, adjustable for optimal filling

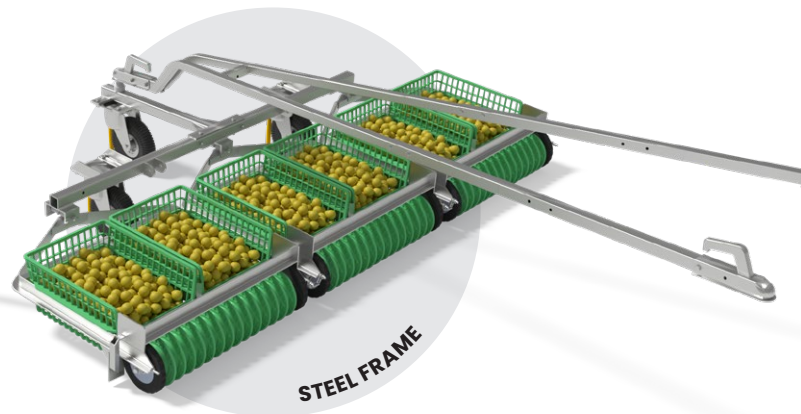

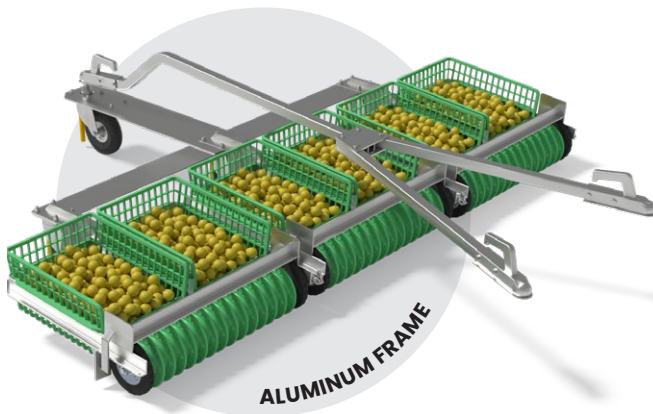

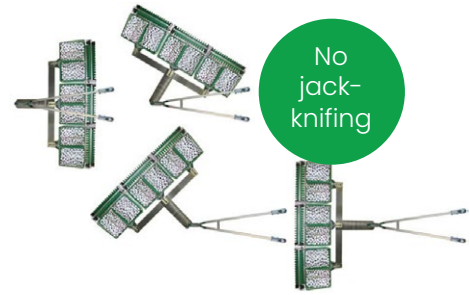

Requirements: 230V electricity

BALL PICKERS

Range Servant Ball Pickers are built stronger than other pickers in the same class. We use the highest quality, thick gauge aluminum and galvanized steel to ensure long-life. With the highest capacities on the market and the ability to drive in forward and reverse, our pickers stand up to the busiest ranges with the toughest terrains.

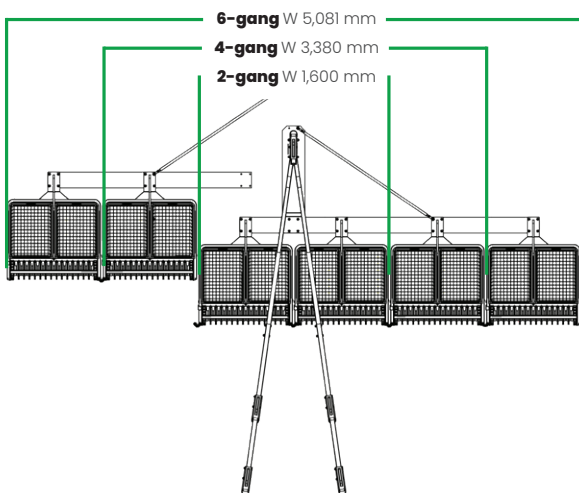

BALL PICKER LIGHT

Flexible, for undulating terrain.

- Galvanized steel and aluminum construction
- In-line design allows for driving forward and in reverse
- High capacities: 1,600–4,800 balls
- Light weight flexible design
- Flotation tires for a smooth stable ride
- Multiple flex points for varied terrain
- Adaptable to any cart or vehicle
- Available with Multiflex or Plastic discs

The light frame can be purchased in **2, 3, 4, 5 & 6 GANG** and can be upgraded from 2 to 4, 3 to 5, and 4 to 6.

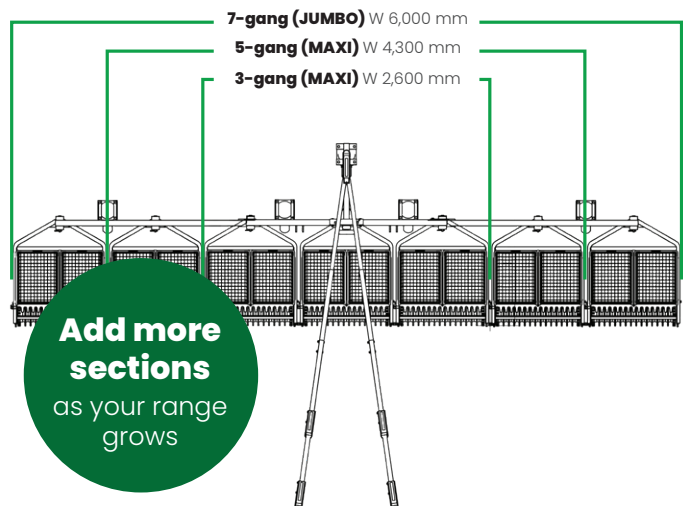

BALL PICKER HEAVY DUTY

Stiff, the most durable option.

- 100% galvanized steel construction
- In-line design allows for driving forward and in reverse
- High capacities: 2,400, 4,000, 5,600 balls
- Greasable pillow block bearings and caster fittings (HD Rubber)
- Flotation tires for a smooth stable ride
- Multiple flex points for varied terrain
- Adaptable to any cart or vehicle
- Available with Multiflex or Rubber discs

The Heavy Duty frame can be purchased in **3, 5 & 7 GANG** and can be upgraded from 3 to 5, and 5 to 7.

Highest capacity
pickers in the world

360°

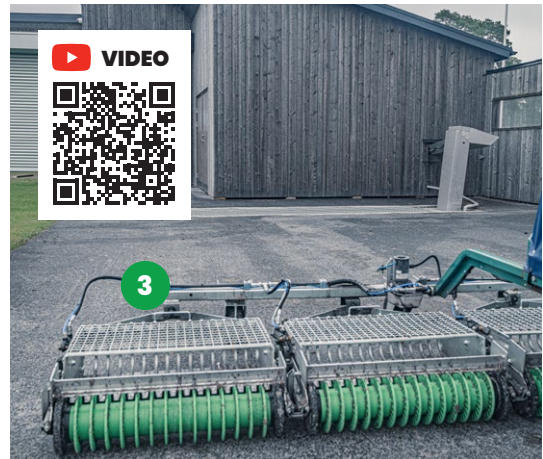

Range Servant products are the best in the business. The durability and turn radius of their ball pickers is unmatched, and the reason we chose Range Servant.

Ben Bridgers - Director of Golf,
Pinehurst Resort, Pinehurst, NC, USA

BALL PICKER WITH HYRAULIC OR MANUAL EMPTYING

- Speeds up the picking process
- Good for the overall working environment
- Emptying is maneuvered from inside the vehicle
- 100% galvanized steel construction
- In-line design allows for driving forward and in reverse
- Capacities: 1,800, 3,000 balls
- Greasable pillow block bearings and caster fittings
- Floatation tires for a smooth stable ride
- Multiple flex points for varied terrain
- Adaptable to any cart or vehicle

RELOX ROBOTICS™ ROBOTIC PICKER

AUTOMATED PICKING SOLUTION

Automate your range and increase customer satisfaction while freeing up time for your employees. Using a high precision GPS and proximity sensors, the Robotic Picker safely and systematically collects golf balls on the range - day and night. It continuously receives software updates and support team can access the robot if needed. Use your phone to control the robot or get detailed information about its operation.

” We have put in an enormous number of hours into developing our ball management system to work as seamless and effective as possible over the past few years, now we have taken the next step and decided to invest in a Robotic Picker and BMS from Range Servant. With this new setup, we can put our limited resources into activities that really improve the overall experience of our facility.

The Robotic Picker is programmed to pick high-volume areas on the range where the players are actually hitting - because of the new and improved targets that we have installed.

*Magnus Ljungman, Project Manager
Österåkers Golf AB, Sweden*

- Picking accuracy of 2 cm
- Estimated number of balls picked:
 - 500 per round
 - 20,400 per 24 h
- Adjustable work hours and picking areas
- Smart path planning
- No limited area
- Less labor intensive for employees
- Reduced fuel costs
- Reduced labor costs
- Can be monitored and started/stopped from portal
- 100% electrical

PART NO.	PRODUCT	CAPACITY
1000352*	Robotic picker rental agreement	approx. 20,400 balls/day
1001531	Onboarding Robotic Picker	

* Includes robotic picker, base station, charging station and spare parts (non-wear parts). 36-month contract. Installation will be performed by certified staff and an installation fee will be added.

Limited robots available for 2023

High precision GPS

20,400 picked balls per day

BALL MANAGEMENT SYSTEM

BMS

Develop a cost-efficient and easy-to-operate range with our BMS, Ball Management System. Combining the picking, washing, and dispensing into one system, our BMS will suit any facility, from the smallest country club to the largest commercial range. Improve core business and customer relations by automating your range through our BMS IT-solutions. We have already helped golf clubs and ranges around the world operate a more carefree range through our Ball Management System.

FULLY AUTOMATIC

Our BMS can be purchased with a fully or semiautomatic setup, depending on your need. Using advanced PLC-coding we program our control-box to deliver balls from the storage area to all receiving units, which can be both ball dispensers and/or hoppers.

BLOWER-SYSTEM

Our blower-system, using compressed air and flexible hoses, feeds balls from the remote washing/storage area to single or multiple dispensers. Having a washer/storage area in a remote location is strategic for design and improves safety for the staff.

MULTI-STOREY SOLUTIONS

Our BMS can accommodate several storeys with ease. Since every BMS is custom made our priority is feeding balls through the system in a safe and secure manner.

Because no two ranges are the same, we take pride in creating a customized solution just for you.

Daniel Steen, Sales & Marketing Director

Project Management

Range Servant is experienced in creating and finalizing projects. From sales to installation, you can trust Range Servant to see your project through to completion.

- 1 PRE-STUDY**
Set expectations for project.
- 2 PLACE ORDER**
- 3 MANUFACTURE PRODUCTS**
- 4 SHIPPING OF PRODUCTS**
- 5 DELIVERY AND INSTALLATION**

PRE-STUDY

Our pre-studies are designed so that all expectations and goals are met. In the pre-study, we will look closely at your site, identify its capacity, function, and include a conceptual design to easily visualize what the result will look like. Not only do we want to deliver products to the project, but we also want to identify opportunities and reduce risks. Our experts will then create a checklist for you, with all the correct logistical and technical specifications so that nothing is left to chance once we are ready to install our products. If you decide to use us as your supplier, we will subtract the cost of the pre-study from the placed order resulting in no extra cost to you.

If you decide to use another supplier, the pre-study that you have purchased will be a valuable tool for your future decisions.

For more information about the cost of a pre-study, call us at +46 (0)35 10 92 40 or send an email to: sales@rangeservant.com

Range Servant is the preferred BMS supplier for Topgolf Entertainment Group.

Topgolf, Las Vegas

BALL MANAGEMENT SYSTEM

VIDEO

1 CONTROL CABINET

Automated or manual with sophisticated programming to fit each facility.

2 DITCH

2m–6m in length, both wet/dry, Ditch sensors start the BMS.

3 DITCH ELEVATOR

Feeds balls into the washer.

4 WASHER

Starts automatically when ditch elevator activated.

5 HOPPER ELEVATOR

Transports washed balls into the Hopper.

6 HOPPER

Ball storing units available in several sizes from 15,000–50,000 balls.

7 BLOWER-SYSTEM

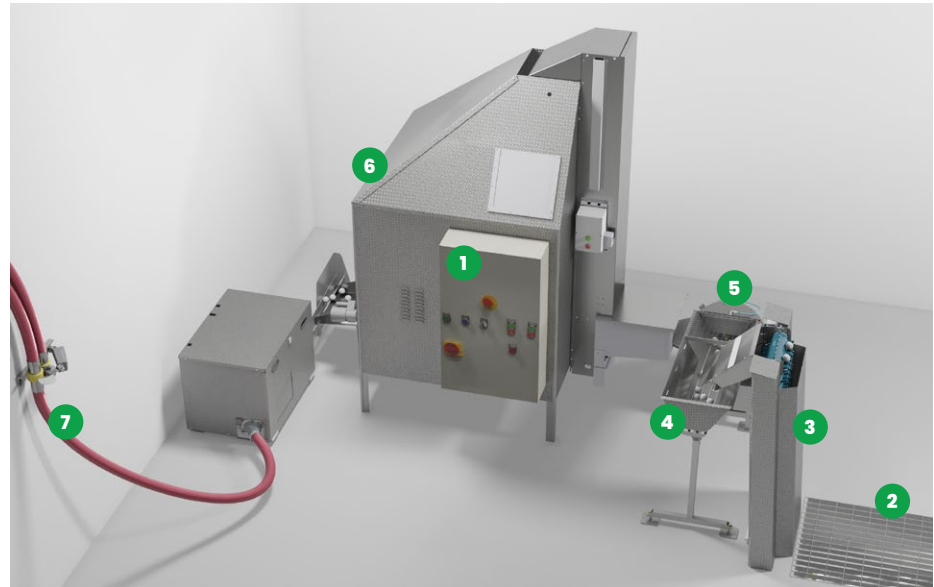

Receives balls from Hopper and blows them to the receiving units.

➤ RECEIVING UNITS

Hoppers/Dispensers can be set to automatically call for balls when the ball level is low.

➤ TEE BOX

Bay Dispensers filled by Ball Transportation Carts.

- 1 CONTROL CABINET
- 2 CONCRETE DITCH 6m
- 3 DITCH ELEVATOR
- 4 WASHER BT1950
- 5 HOPPER ELEVATOR
- 6 HOPPER 15
- 7 BLOWER SYSTEM

ROBOTIC PICKER

Central receiving units provides **INCREASED REVENUE**

” Our new Ball Management System has been a tremendous asset to our operation. After installing a Range Servant ball washer, blower and dispenser last fall, we have seen a massive reduction of man hours required to wash, transport and distribute range balls. It has proven to be a sound investment.

Scott Hoffman, Northway Golf Center, Clifton Park, USA

6 HOPPERS

Our Hoppers provide storage for additional golf balls and are a great way to increase ball inventory. Clean golf balls can be stored and ready to be distributed to our Golf Ball Dispensers or Tee Boxes. Available in several sizes, Range Servant has a hopper that will fit your needs.

PART NO.	PRODUCT	BALL CAP	SIZE H/W/D mm
750000	Hopper 15	15,000 balls	2,307*/1,004/755
770000	Hopper 22	22,000 balls	2,307*/1,259/1,256
780000	Hopper 30	30,000 balls	2,307*/1,524/1,524
790000	Hopper 50	50,000 balls	2,307*/2,036/1,536
HAM0021	Hopper Outfeed, Hopper 15-30		
1000988	Hopper Outfeed, Hopper 50		

Outfeed on all Hoppers: 455 mm

*Height w/Elevator: 2,481 mm

7 BLOWER SYSTEM

Our blower system, using compressed air and flexible hoses, feeds balls from the hopper in the remote washing/storage area to receiving units.

There is no other way to save as much time and labor at a busy driving range. Range Servant Blowers can be found at the busiest ranges in the world.

PART NO.	PRODUCT	CAPACITY
800020	Blower 2,2 kW	approx 0-125 m*
800030	Blower 3,0 kW	approx 0-180 m*

Size (mm): H 585 / W 805 / D 565

1001166	Control Box Max VI	Can accommodate up to 4 units
800040	Control Box Midi VI	Can accommodate up to 2 units

We offer other solutions. Contact us to discuss your need.

2-METER DRY DITCH

1

DITCH SYSTEMS

Range Servant has two different ditch solutions, a **2-METER DRY DITCH** modified for our robotic picker and a **6-METER WET, CONCRETE DITCH** that works with both the robotic- and ordinary ball picker.

Both ditches require advance preparation of the ground before installation. The 2-meter robotic ditch is plastic and ready to install when delivered. The 6-meter ditch needs to be casted-in-place before installation. Your Range Servant sales professional will talk through the preparation options when placing an order.

With regular daily maintenance, both ditches will have a long life-expectancy; the robotic ditch lasting 15-20 years and the cast ditch 50 years. The ditches come with plates, a water-resistant elevator, ditch sensors and depending on the control cabinet, they can be manual or automatic. This is important, as installing ball ditches will spare your personnel from heavy lifting and remove routine work, so that they can focus on more important tasks.

6-METER WET, CONCRETE DITCH

PREMIUM LIGHTING

OPEN DAY & NIGHT

The Range Floodlights illuminates the entire ball flight, giving the golfer an accurate feedback on their swing, compared to losing sight of the ball in the dark. We offer spotlights for various purposes and of the highest quality. The floodlights have the capacity to illuminate driving ranges, training areas and practice greens. The robust construction with a high brightness enables optimal light distribution and very good stability for large light requirements.

- Increased opening hours and occupancy
- Reduced number of lamps required for optimal illumination
- Swedish design
- 5 year warranty
- Light spreads evenly throughout the entire driving range
- Highest impact resistance IK10, protected against 20 joules on impact (vandal-proof)

ARTIFICIAL TURF FROM UNISPORT

Artificial grass works perfectly on the tee line, or to build attractive target areas on your driving range. Unisport annually installs approx. 45,000 m² of artificial turf for golf venues around the world. Through leading and innovative work on artificial grass product development, they have found the optimal conditions regarding ball reception, putting characteristics and with the minimization of maintenance costs.

- Inviting training facilities lead to increased revenue and better results on the course
- Good assortment in different price categories
- The surfaces are built so that the Range Servant's picker can handle the picking procedure across the entire range
- Possibility of architect-designed training ranges
- Supplier with long experience

UNISPORT

THE PROCESS - WALKTHROUGH

- 1 Range Servant and Unisport provide a first draft according to your wishes
- 2 Joint visit to the customer to review the project
- 3 Production of any drawings and quote
- 4 Review of drawings and project start date
- 5 Start-up ground work
- 6 Surface installation

LIMA GC, PERU

A 330-yard, double-ended driving range with three large, undulating target greens with artificial turf, used as a six-hole par 3 course for junior coaching camps.

CHRISTIAN LUNDIN

GOLF COURSE ARCHITECT

Unisport Scandinavia has been a great supplier for us. They provide the complete package with the artificial turf as well as the installation. This ensures the high quality demand that we set to our costumers and clients.

JOHAN BENESTAM

GOLF COURSE ARCHITECT

My vision with the refinement of Landskrona Golf Club's Driving Range was to create an interesting Practice Range with a couple of target greens with associated foregreens and bunkers. The Practice Range should be experienced as real golf holes that you can practice on. With Unisport's experience and expertise as well as a wide range of different synthetic grass solutions, the entire process was a very successful investment for Landskrona Golf Club.

MATTIAS CARLSSON

BUSINESS UNIT DEVELOPER UNISPORT

The importance of practicing on a driving range with clear and fun targets is vital for me as a golfer. I have taken this with me throughout my career and has been fortunate enough to help venues across the world implement that. I'm always looking to find the right products for the right purpose within our product range.
